Fun Family Recipes for
Giving Back Together

Our Mission

Cradles to Crayons® provides children from birth through age 12, living in homeless or low-income situations, with the essential items they need to thrive—at home, at school, and at play. We supply these items free of charge by engaging and connecting communities that have with communities that need.

Our Model

Cradles to Crayons collects new and nearly new children's items through grassroots community drives and corporate donations. Donations are processed and packaged by volunteers, and then distributed to children in need through our collaborative Network of Service Partners, including schools, nonprofit organizations, and state agencies.

Introduction

One in three people in the United States living in poverty is a child.

Cradles to Crayons currently meets a critical need in three regions that have significant percentages of children living below the poverty line—Boston, 33%, Philadelphia, 37%, and Chicago, 33%. Poverty is defined as a family of four living off of \$24,250 or less for the year.¹

But statistics don't get to the heart of what we do. We help kids who don't have access to basic resources: kids without shoes that fit, a coat warm enough to fend off winter winds, or a backpack to carry their books to and from school.

When children don't have these simple things that are often overlooked, they face unnecessary challenges. They have a harder time learning in school. They are less likely to engage with their peers. They don't feel valued.

Your family can support other families right in your own community by collecting high-quality children's essentials like clothing, shoes, or books, or by raising money.

From collection drives to raising awareness to celebrating milestones by sharing gifts, there are many ways to come together to support Cradles to Crayons and celebrate the power of giving!

This guide shares some of the creative activities our families and youth are doing to give back together. We invite you to try out the "recipes" in this book—or share your own ideas or favorite giving tradition with us.

We know that working for change can affect all of us. We know that we are stronger together. Thank you for your commitment to our mission and investment in giving all children the basic essentials they need and deserve.
